

LEGANTE SERIES - BINDERS & THICKENERS		
CODE	PRODUCT NAME	PROPERTIES
CW-PR-0014	LEGANTE SA38	Styrene acrylic binder for rotary and flatbed printings with high color brilliancy and fastness (Tg-8)
CW-PR-0015	LEGANTE SA ECO	Styrene acrylic binder for rotary and flatbed printings with high color brilliancy and fastness Tg-8)
CW-PR-0016	LEGANTE PA 51	Pure acrylic, high concentrated, high fastness and brilliancy very soft binder (Tg-16)
CW-PR-0017	LEGANTE PA 41	Pure acrylic, concentrated, high fastness and brilliancy very soft binder (Tg-16)
CW-PR-0018	LEGANTE V40	Vinyl acrylic binder, medium hard for standard quality pigment printing process (Tg -2)
CW-PR-0019	LEGANTE ACN50	Acrylonitril base binder for superior printing process which is extremely soft and high fastness results (Tg-18)
CW-PR-0020	LEGANTE RAPIDO	Self dry binder for octopus and hand printing process with acrylonitril additive for high dry cleaning and wash resistance (Tg-18)
CW-PR-0021	LEGANTE R15	Pure synthetic thickener for reactive printing paste preparation with very soft and easily removable formulation.
CW-PR-0022	LEGANTE LC15	Concentrated long chain synthetic pigment thickener for highly brilliancy and soft touch.user friendly which is very low viscosity form.
CW-PR-0023	LEGANTE SST	Semi synthetic thickener for reactive printing paste preparation which is high quality alginate and synthetic mixture in highly stabilize.
CW-PR-0024	LEGANTE LCPN	Concentrated long chain pigment thickener for highly brilliancy and soft touch. No need to add ammonia for regulate the pH.
CW-PR-0025	LEGANTE POLY-T	Polyurethane base thickener for rheology modifier use in any purpose. It gives better coverage on pigment.
CW-PR-0026	LEGANTE PERT	Permanganate thickener for denim discharge process.
CW-PR-0027	LEGANTE ACT	Acrylic rheology modifier.
CW-PR-0028	LEGANTE NF-R	Wrinkle free finishing resin, free from formaldehyde.
CW-PR-0029	LEGANTE LF-R	Wrinkle free finishing resin, low formaldehyde.
