

PRIMO SERIES - PRE TREATMENT CHEMICALS FOR CONTINUE & EXHAUST PROCESS				
CODE	PRODUCT NAME	PROPERTIES	CONTINUE	EXHAUST
CW-PT-0001	PRIMOTEX A	Highly concentrated detergent&wetting agent for continue process.	+	X
CW-PT-0002	PRIMOTEX B	Highly concentrated detergent&wetting agent for exhaust process.	X	+
CW-PT-0003	PRIMOTEX AB	Highly concentrated detergent&wetting agent for continue and exhaust process.	+	+
CW-PT-0004	PRIMOTEX MONO	Low foaming, concentrated combine bleaching agent with good wetting, detergent, stabilizing, sequestering and emulsifying properties.	+	+
CW-PT-0005	PRIMOTEX VISCO	It is all-in-one product, including whitening and all auxiliary chemicals for hydrogen peroxide bleaching of viscose/rayon .	+	+
CW-PT-0006	PRIMOTEX PS	Peroxide stabilizer designed for stabilizing alkaline hydrogen peroxide bleach baths in jet dyeing machine at high temperature.	+	+
CW-PT-0007	PRIMOTEX PS2	Peroxide stabilizer designed for stabilizing alkaline hydrogen peroxide bleach baths.	+	+
CW-PT-0008	PRIMOTEX SQ UNI	Sequestering and dispersing agent for all stages of wet processing, efficient on iron and calcium.	+	+
CW-PT-0009	PRIMOTEX CR 90	Acrylic copolymer-based liquid, fiber to fiber and metal to fiber active, inhibiting creases and wrinkles during cellulose and its blends processing. It is versatile over a wide range of pH and temperature.	+	+
CW-PT-0010	PRIMOTEX FOAM-S	Silicone based antifoaming agent resistant to hard water, acidic and neutral media.	+	+
