

STAMPATEX SERIES FOR AOP - PREPARED PRINTING CHEMICALS		
CODE	PRODUCT NAME	PROPERTIES
CW-PR-0001	STAMPATEX BLANCO-S	Very soft and good coverage, elastic, chemically zero formaldehyde, white paste for especially elastic fabrics with high wash fastness.
CW-PR-0002	STAMPATEX BLANCO-S PLUS	Very soft and extremely white coverage and elastic, chemically zero formaldehyde white paste for especially elastic fabrics with high wash fastness.
CW-PR-0003	STAMPATEX BLANCO-T	Medium soft, highly white coverage, semi elastic, chemically zero formaldehyde ready to use white paste.
CW-PR-0004	STAMPATEX BLANCO-T PLUS	Medium soft, extremely white coverage, semi elastic, very low viscosity with high performance, chemically zero formaldehyde white paste.
CW-PR-0005	STAMPATEX DW 100	Special white discharge paste with highly white and soft effect. Totally non blocking and chocking formulation for non stop printing.
CW-PR-0006	STAMPATEX DCC	Special transparent discharge paste for brilliant and high fastness printing. Totally non blocking and chocking formulation for non stop printing.
CW-PR-0007	STAMPATEX XC	Special dark dyed ground paste which is not possible to achieve high brilliancy effect on it with very soft and high fastness end.
CW-PR-0008	STAMPATEX VELVET	Prepared paste for zero touch effect pigment printing with high fastness.
CW-PR-0009	STAMPATEX GB ULTRA	Glitter adhesive with non sticky, non blocking and high brilliant properties.
CW-PR-0010	STAMPATEX METAL GOLD	Long shelf life, ready to use, brilliant metallic gold paste suitable for fine mesh.
CW-PR-0011	STAMPATEX METAL SILVER	Long shelf life, ready to use, brilliant metallic silver paste suitable for fine mesh.
CW-PR-0012	STAMPATEX METAL BRONZE	Long shelf life, ready to use, brilliant metallic bronze paste suitable for fine mesh.
CW-PR-0013	STAMPATEX GG	Long shelf life, gold effect, non metallic, high fastness ready to use paste.
